

A screenshot of a Python 3.10 (64-bit) command prompt window. The window has a title bar with the text "Python 3.10 (64-bit)" and standard Windows window controls (minimize, maximize, close). The main area is a dark gray terminal with white text. The text shows the Python version and build information, followed by a prompt for help. Then, a user input "Ingrese tu nombre: " is shown, followed by the user's input "Fernando Armijos". This is followed by a print statement and its output "Hola, Fernando Armijos.". The prompt "Ingrese tu nombre: " is also shown again, suggesting the user has entered the name multiple times or the prompt is repeated. The text is as follows:

```
Python 3.10.8 (tags/v3.10.8:aaaf517, Oct 11 2022, 16:50:30) [MSC v.1933 64 bit (AMD64)] on win32
Type "help", "copyright", "credits" or "license" for more information.
>>> nombre = input("Ingrese tu nombre: ")
Ingrese tu nombre: Fernando Armijos
>>> print("Hola, "+ nombre + ".")
Hola, Fernando Armijos.
>>>
Ingrese tu nombre:
```
